

Did your child go through a difficult experience?

Fighting in the home
Separation or loss of a loved one
Maltreatment
Violence in the community
Accidents, injuries or painful medical procedures

The Child Trauma Center

The UCSF Child Trauma Research Program at SFGH
A program for families who experienced trauma, violence, and loss

We provide free assessment and treatment for children aged birth to five.

Families who agree to participate in our research may be compensated up to \$90.

Please call 415-206-5311 to learn more.
